

### Professional Practitioner Programme 2013/14 Programme

# 2013/2014 programme — weekday and weekend courses — You can choose either weekday or weekend for each course

To gain the Hypnotherapy Practitioner Diploma (HPD) requires completion of all four courses in any order. The HPD can be taken entirely as a weekend course over one year. Alternatively you may choose to attend entirely on weekdays and, by so doing, qualify more quickly. So you are free to study at your own pace and even mix and match some weekend training and some weekday. You have up to two years, if you need it, to complete your training. Please see our full prospectus for more information.

#### Mind Wide Open

Mind Wide Open is our one day, foundation/introductory course in Hypnotherapy, Coaching and NLP. Participants will experience going into hypnosis themselves as well as learning how to take someone else safely and easily in and out of hypnosis. You will also learn some NLP models for rapid change and some of the basic skills of Life Coaching. The day is a highly practical and fun way to learn and an ideal (low cost) taster if you are considering the other courses.

#### Intensive One to One Training

A very small number of places, for each course, are available for those with time constraints or who wish to qualify through an intensive, one to one, trainer/student or microgroup route. The number of hours of attendance can be significantly reduced and the qualification attained in a considerably shorter timeframe. If you feel this is for you please ask us for details.

#### Distance Learning Option

All courses are available to study through, fully tutor supported, distance/on-line learning. Distance learning courses may be linked to short intensive, attendance training courses to meet the requirements of individual learners. Students learn at their own pace and receive personal tutorials, assignments and supervision. Please call us to arrange for an informal discussion.
